

Interprofessional Education Lead

Overview of Role

- Serve as the leading change agent for the MOVE program:
 - Support engagement of key stakeholders within the organization to enable the success of the project
 - Assemble a MOVE interprofessional implementation team
 - Co-ordinate and chair implementation team meetings
 - Work with evaluation lead to conduct readiness assessments and the STEP tool
 - Select change strategies based on results of the STEP tool
 - Deliver selected change strategies with support from implementation team and unit staff
 - Provide point-of-care coaching and modeling for staff
- Work with physician lead to select an evaluation lead
- If volunteers are part of the intervention, identify a team leader from the unit to be the point of contact for inquiries and provide clinical support and guidance to volunteers as needed

Suggested Commitment

- On average this is a 0.2 FTE role, meaning the Education Lead should plan to devote approximately one day a week to MOVE. During the weeks that new change strategies are being delivered, the Education Lead should plan to devote more than 0.2 FTE (e.g. up to 0.5 FTE).
- Ideally, this role should be a sustainable in-kind contribution from the hospital

Suggested Credentials

- A registered health professional with advanced knowledge in geriatric best practice and senior friendly care
- Masters level graduate degree or higher
- Leadership experience demonstrating an advanced understanding of inter-professional practice and teamwork
- Demonstrated experience in clinical and/or academic education
- Project management skills
- Effective communication and facilitation skills
